

Services Data Sheet

With over 30 years background in manufacturing, Aviatech is an experienced Electronic Manufacturing Service provider and subcontractor in machining. We provide complex services in the field of prototyping and small to medium volume manufacturing, metal machining, cable harnessing, assembling and testing of electronic and mechanic related products for professional market.

We focus on complex products with high manufacturing and assembly requirement in mechanics and electronics.

Our company is ISO 9001:2008 certified. Scope of Supply:

“Manufacturing, maintenance, repair and sale of Flight Recording and Emergency Control Systems for civil aviation aircrafts and earth equipment of computing the flight recordings. Subcontracting works in the field of fine mechanics and electronics.”

Our facilities are located in Estonia.

Manufacturing Capabilities

- Prototyping
- PCB assembly
 - SMT
 - Through-hole
- Electronics assembly
- Box Build assembly
- Labour-intensive manufacturing
- Sourcing
- Washing
- Cleaning
- Coating
- Cable harnessing
- In-Circuit Testing
- Functional Testing
- Environmental testing
- Vibration testing
- CNC machining
- Manual milling
- Manual turning
- Precision mechanics
- Mechanical assembly
- Small series manufacturing

CNC Tools

Okuma ACE Center 46-VAE x2
Haas Super Mini Mill x2
Fadal 4020
Fadal 3016
Fadal 15XT
Fadal 3020
Hermle C 600 V
+
Manual milling
Manual turning

Quick facts:

- Established in 1981
- Manufacturing area – 1500 m²
- Revenue – 23 mEEK
- ISO 9001:2008 certified
- FTA – 35

Market segment:

- Aerospace/Defense
- Medical equipment
- Industrial electronics
- Automation industry
- Telecom
- Energy
